Hertfordshire Minerals and Waste Local Plan - Draft Plan Consultation Response Form

Hertfordshire County Council is preparing a new Minerals and Waste Local Plan which will replace the current adopted Minerals Local Plan Review 2002-2016 (March 2007), Waste Core Strategy and Development Management Policies Development Plan Document (DPD) (November 2012), Waste Site Allocations DPD (July 2014), Mineral Consultation Areas in Hertfordshire Supplementary Planning Document (SPD) (November 2007) and Employment Land Areas of Search SPD (November 2015).

The Council had been reviewing these documents through the preparation of a separate Minerals Local Plan, Waste Local Plan and Waste Facilities Design Guide SPD, however in December 2021 the Council agreed to bring these documents together into a single Minerals and Waste Local Plan. All comments received on the aforementioned documents have been fully taken into account in preparing the new Plan. A series of Policy Evidence Reports has been published on the Council's website which details the main issues which were raised during those documents' recent consultations.

The Council is now consulting on the **Draft Plan** version of the **Minerals and Waste Local Plan**, and we are keen to hear your views. The Draft Plan and supporting evidence base, such as the Sustainability Appraisal (SA) and Habitats Regulations Assessment, can be viewed on the Council's website at <https://www.hertfordshire.gov.uk/mwlp> and at County Hall, Hertford (via prior arrangement). This consultation is being carried out under Regulation 18 of The Town and Country Planning (Local Planning) (England) Regulations 2012 (as amended).

Consultation starts **22 July 2022** and closes at **23:59** on **30 September 2022**

We would encourage you to make your comments using the Council's online consultation form which is available at the link above, however if you are unable to submit your comments online, please use this form and email it to mineralsandwaste@hertfordshire.gov.uk or post to the address below. **Please use a separate Part 2 for each comment you wish to make.**
