

**Decision Ref. No.**  
**B103/19**

## Annex A

<b>Subject: Second Procurement for the provision of short-term 'bridging' arrangements for the treatment and final disposal of local authority collected residual waste.</b>	
Officer Contact: Matt King	Executive Member: Terry Hone
Tel: 01992 556207	Portfolio: Community Safety & Waste Management

The contract referred to in the attached Officer Decision Record is awarded to Veolia ES (UK) Limited.

### Details of contract:

The contract is for the treatment and final disposal of local authority collected residual waste, the contract is to start in April 2021 and run for two years until March 2023 with the option to extend for one further year.

The contract is for 40,000 tonnes of residual local authority collected waste, the contract with Veolia means that they can accept Non-Bulky and Mixed loads of residual waste, as specified and required by the council.

The facility put forwarded by Veolia for use by the council is Rookery South Energy Recovery Facility in Bedfordshire.

The advertised contract value was £14.4million for the life of the contract.
