Please provide a summary of the evaluation process and reasons for the award of contract to the successful bidder

HSBP have worked in partnership with HCC to support the development and procurement of a new secondary school at Bishops Stortford South. The HSBP procurement route affords HCC a lower risk profile than a typical procurement route. The HSBP contract sum has been analysed and vetted by HCC's external project and programme management consultants to confirm value for money. The HSBP programme for the construction and completion of the new school facilities is able to deliver the project within the required timescales.
