<b>Subject: Provision of Housing Related Support services – Award of Contract</b>

### **1. Decision**

Extend Housing Related Support services by way of Single Tender Action for 2 years – contracts will be extended to March 2024.

### **2. Reasons for the decision**

To enable the time to continue building on the relationships established with Districts, review contracts, evaluate current service provision, including a number of pilot projects, and conduct consultation with the market and stakeholders, in the wake of COVID-19 pandemic.

This will inform the future model and enable HCC to conduct a robust procurement exercise, which achieves value for money. Critically, HCC will be able to develop a service model that is driven by service user level involvement and experience.

### **3. Alternative options considered and rejected <sup>2</sup>**

Go out to the market and commission services for a period of two years, from April 2022.

Housing partners and providers are working on exit planning for COVID throughout 2021, upon easing of restrictions. Going out to procure services in 2021 will cause instability and directly impact service users, in what has already been a demanding 15-month period across the system.

The alternative option will also not enable HCC to meet its strategic ambitions to develop an evidence-based solution to complex needs services, due to various interdependent pilot projects, whose timelines do not align to this option. These projects will provide learning and analysis to be incorporated into future service model

This alternative option does not take into consideration the unprecedented wider funding streams that have been put in place across the county during the COVID-19 pandemic. Going out to the market in 2021 would not enable these funding streams to be consulted on and incorporated into a sustainable future model across the system.
