

EMIS Learning Disabilities HCAP Clinical Template & Health Action Plan

To access all the available items, you need to go into 'Template Manager'

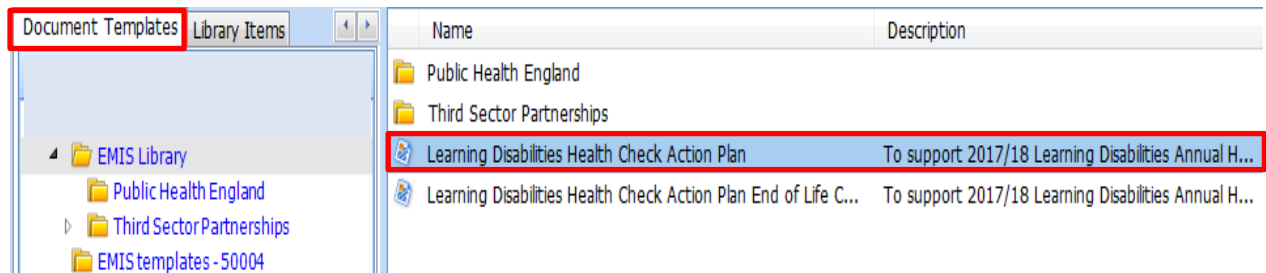

Learning Disabilities Annual Health Check Clinical Template

The clinical template is in Template Manager > Templates & Protocols > EMIS Library > Primary Care Templates > Learning Disabilities HCAP

Learning Disabilities Annual Health Check Action Plan

The Learning Disabilities Health Check Action plan is located in Template Manager > Document Templates > EMIS Library

A Learning Disabilities End of Life Action Plan has also been provided.

Learning Disability HCAP Protocols

EMIS have developed two protocols for use as part of the Learning Disabilities HCAP package.

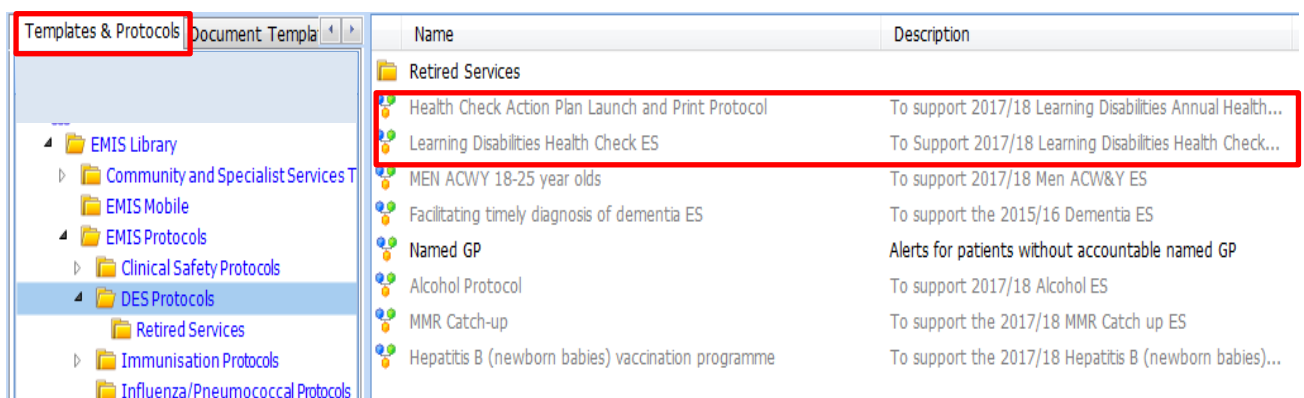

Health Check Action Plan Launch & Print Protocol – This launches the Health Check Action Plan document template, auto-populates it with information entered on the clinical template (or already in patient record) and then enables a copy to be printed for the patient / carer.

Learning Disabilities Health Check ES Protocol – This runs concepts to identify if a patient is 14 years or older and has a learning disability diagnosis. If both are true, it then runs further concepts to identify if the patient has had a Learning Disability Health Check Action Plan completed or declined in the current year. If not then a Learning Disability Action Plan alert is displayed when the patient record is opened.

As EMIS have set both to 'Inactive', to benefit fully from them your practice should activate them before using the clinical template.

Activating the EMIS Protocols

To activate these protocols navigate to **Template Manager > Templates & Protocols > EMIS Library > EMIS Protocols > DES Protocols** where both protocols are listed, but 'greyed' out.

Right click on them, select **Status** and click **Activate** (or alternatively click the **Activate** icon on the main menu ribbon). The status will change to active and they will no longer be 'greyed' out,

Name	Description	Type	Date Modified	Status
Retired Services		Folder	06-Jul-2015	Active
Health Check Action Plan Launch and Print Protocol	To support 2017/18 Learning Disabilities Annual H...	Protocol	20-Jul-2017	Active
Learning Disabilities Health Check ES	To Support 2017/18 Learning Disabilities Health C...	Protocol Alert	20-Jul-2017	Active
MEN ACWY 18-25 year olds	To support 2017/18 Men ACW&Y ES	Protocol Alert	18-Jan-2017	Inactive
Facilitating timely diagnosis of dementia ES	To support the 2015/16 Dementia ES	Protocol Alert	20-Nov-2013	Inactive

The **Health Check Action Plan Launch & Print Protocol** will then be available to add to your F12 Protocol Launcher menu if you wish.
