# Information on the Signposter

- This is a signposting document to assist in finding alternative providers of equipment than HES.
- The prime audience is for Service Users that would like more choice on the range of equipment than prescribers have recommended and would like to top-up provision through self-funding.
- To provide additional quality assurance, the providers/sellers on this list are drawn from members of the British Healthcare Trades Association (BHTA). If a provider would like to be included on this list they must evidence membership of BHTA.
- Hertfordshire Equipment Service (HES) accepts no liability for any conduct performed by the listed providers.
- However it is encouraged to report poor conduct to HES so that the document can be reviewed.
- It is the responsibility of Service Users to always do their own research and checks on any company before conducting business with them.

# Equipment or Furniture

- Equipment and furniture are not the same.
- Equipment is/are item/s that meeting a health or social care need.
- Furniture can be readily purchased “off the shelf” – although some advice may be needed concerning optimum dimensions.
- Sometimes there is a need that can be met by furniture –rather than escalating the request for specialised equipment
- Alternative furniture – or modification to existing furniture -shall be considered in the first in stance as being more cost effective and often less intrusive with in the home
- For example, purchase of lower beds or chairs should be explored before looking at height adjustable hospital beds or specialist chairs.
