We met!

The 18th January meeting was postponed as not many group members could make it.

**Is there anything you want to ask the other LDPB members?**

The group would like to ask if you know of a Smartphone App that helps people to hold their personal information. Information like: name, address, date of birth, education, volunteering and work history, what ‘reasonable adjustments’ are needed to take part in learning, volunteering and work etc?

**Does anyone know of an App like this or someone who can build an App like this?**

We liked the Bright Idea bid and would like to invite Nick Winwood to a full LDPB meeting to give an update on the pilot of this idea.
