Safeguarding Adults Board

Working together to prevent abuse

Statement on Publication of Serious Adult Reviews

The Report will be made public. However:

- a) Where publication could prejudice pending court proceedings, the Report will not be made public until such proceedings have been concluded
- b) Where publication would identify an individual in a way that would breach data protection or human rights or would otherwise be harmful to them, the Report will be worded in such a way that does not reveal the identity of those concerned.
- c) Where publication could lead to legal action being brought against one or more of the organisations that form the Safeguarding Adults Board, the Report will be worded in such a way as not to reveal the identities of those concerned or the actionable failings.

As part of the Annual Report of the Safeguarding Adults Board, all concluded Safeguarding Adult Reviews will be brought together and included in a summary which contains the key issues and recommendations set out under common themes rather than case by case.
