safeguarding children
PARTNERSHIP

THE CONTINUUM OF NEED

The guidance sets out the 'Levels of Need' experienced by children, young people and families in Hertfordshire, it offers clarity and support to partners working with them and at what level they should be leading on early support. It recognises the contribution partners make to children, young people and families across the Continuum of Need but is intended to provide clarity to practitioners of the levels of need below the threshold for safeguarding and specialist services. It does promote earlier support for families to address the issues before they escalate to crisis point and ensure that children are kept safe from harm.

The guidance document supports and underpins Families First and will assist practitioners in using assessments tools at different levels across the Continuum of Need and the associated processes to support working with the whole family and provide support at the earliest opportunity. However, it is not intended as a prescriptive guide and recognises that families may have a combination of needs which may require a different response at another level.

The Continuum of Needs indicators: these help you in thinking through where a child might sit on the continuum. They can be used to support your conversations with other professionals and guide your professional decisions. There will still always be grey areas and they do not replace professional judgement and partners will be supported to recognise this through the Families First Partnership Hubs

CIRCUMSTANCES AND KEY FEATURES

Health & wellbeing

- Children and Young People (CYP) meeting developmental milestones
- Good hygiene
- Able to perform self-care appropriate to age
- Appropriately cared for when ill
- Good emotional health and wellbeing
- Age appropriate social care and communication skills
- Positive sense of self and abilities

Family & Environment

- Positive attachments
- Suitable home environment
- Able to recognise unsafe activities
- Secure relationships/ attachments

Education & identity

- CYP attending school/ nursery
- CYP have their social, moral, spiritual and cultural needs met
- Good relationships with peers and adults
- Appropriate stimulation, boundaries and guidance
- Good home/school link

Health & wellbeing

- Slow reaching developmental milestones
- Early/unsafe sexual activity
- Missing/poor attendance at medical appointments
- Not registered with a dentist
- Some relationship difficulties (e.g. divorce/separation, bereavement)
- Frequent illness and infections/ minor health injuries/problems/ unnecessarily accessing health services
- CYP for whom there are emotional, behavioural mental health concerns
- Delayed speech or language/ poor concentration
- Starting to experiment with substance/drugs
- Parents struggling to address own emotional needs and basic routines

Family & Environment

- Families subject to discrimination/harassment/risk of radicalisation
- Change in family circumstances
- Very young parents who are struggling to cope
- At risk of eviction through non-payment of rent/utilities
- CYP beginning to misuse substances

OUTCOMES

Children and young people make good progress in most areas of development and Universal Services meet all of their needs

The life chances of children and families will be improved by offering short term additional support

Children and Families have additional needs and are supported by appropriate and coordinated services through a team around the family in the medium term

Children and families have a range of complex needs which require intensive family support through the Troubled Families programme. They will have a lead keyworker coordinating support from multi-agency partners over a longer period of time 9-12mths

Children are at risk of significant harm or impairment and require specialist statutory intervention
