

Guest Speaker: Munish Datta, Head of Plan A Property at Marks and Spencer's Plc.

Munish heads the creation of the strategy and delivery of Plan A, M&S's well known sustainability programme, for M&S properties across the world. Within its built environment, the highly successful plan has enabled the retailer to become 31% more energy efficient, 27% more water efficient, divert all waste from landfill, become an industry leader in sourcing sustainable materials and launch award winning sustainable learning retail stores in Sheffield, Stratford, Cheshire Oaks and recently New Delhi. Since 2006, applying Plan A to M&S properties has contributed £70m savings. Munish contributes to several industry task Groups, is a member of the UK governments Green Construction Board Buildings working group, the UBM Ecobuild advisory board and on the editorial board of Sustain

Magazine. He speaks regularly at industry events and conferences and is a regular guest speaker at the University of Cambridge Programme for Sustainability Leadership. Munish loves to exchange ideas on twitter @MunishDatta.
