For the attention of Ms .

24 June 1993

Dear Sir,

## Section 32 deposit

I enclose a plan of the Cromwell Road Allotments site owned by Hertford Town Council.

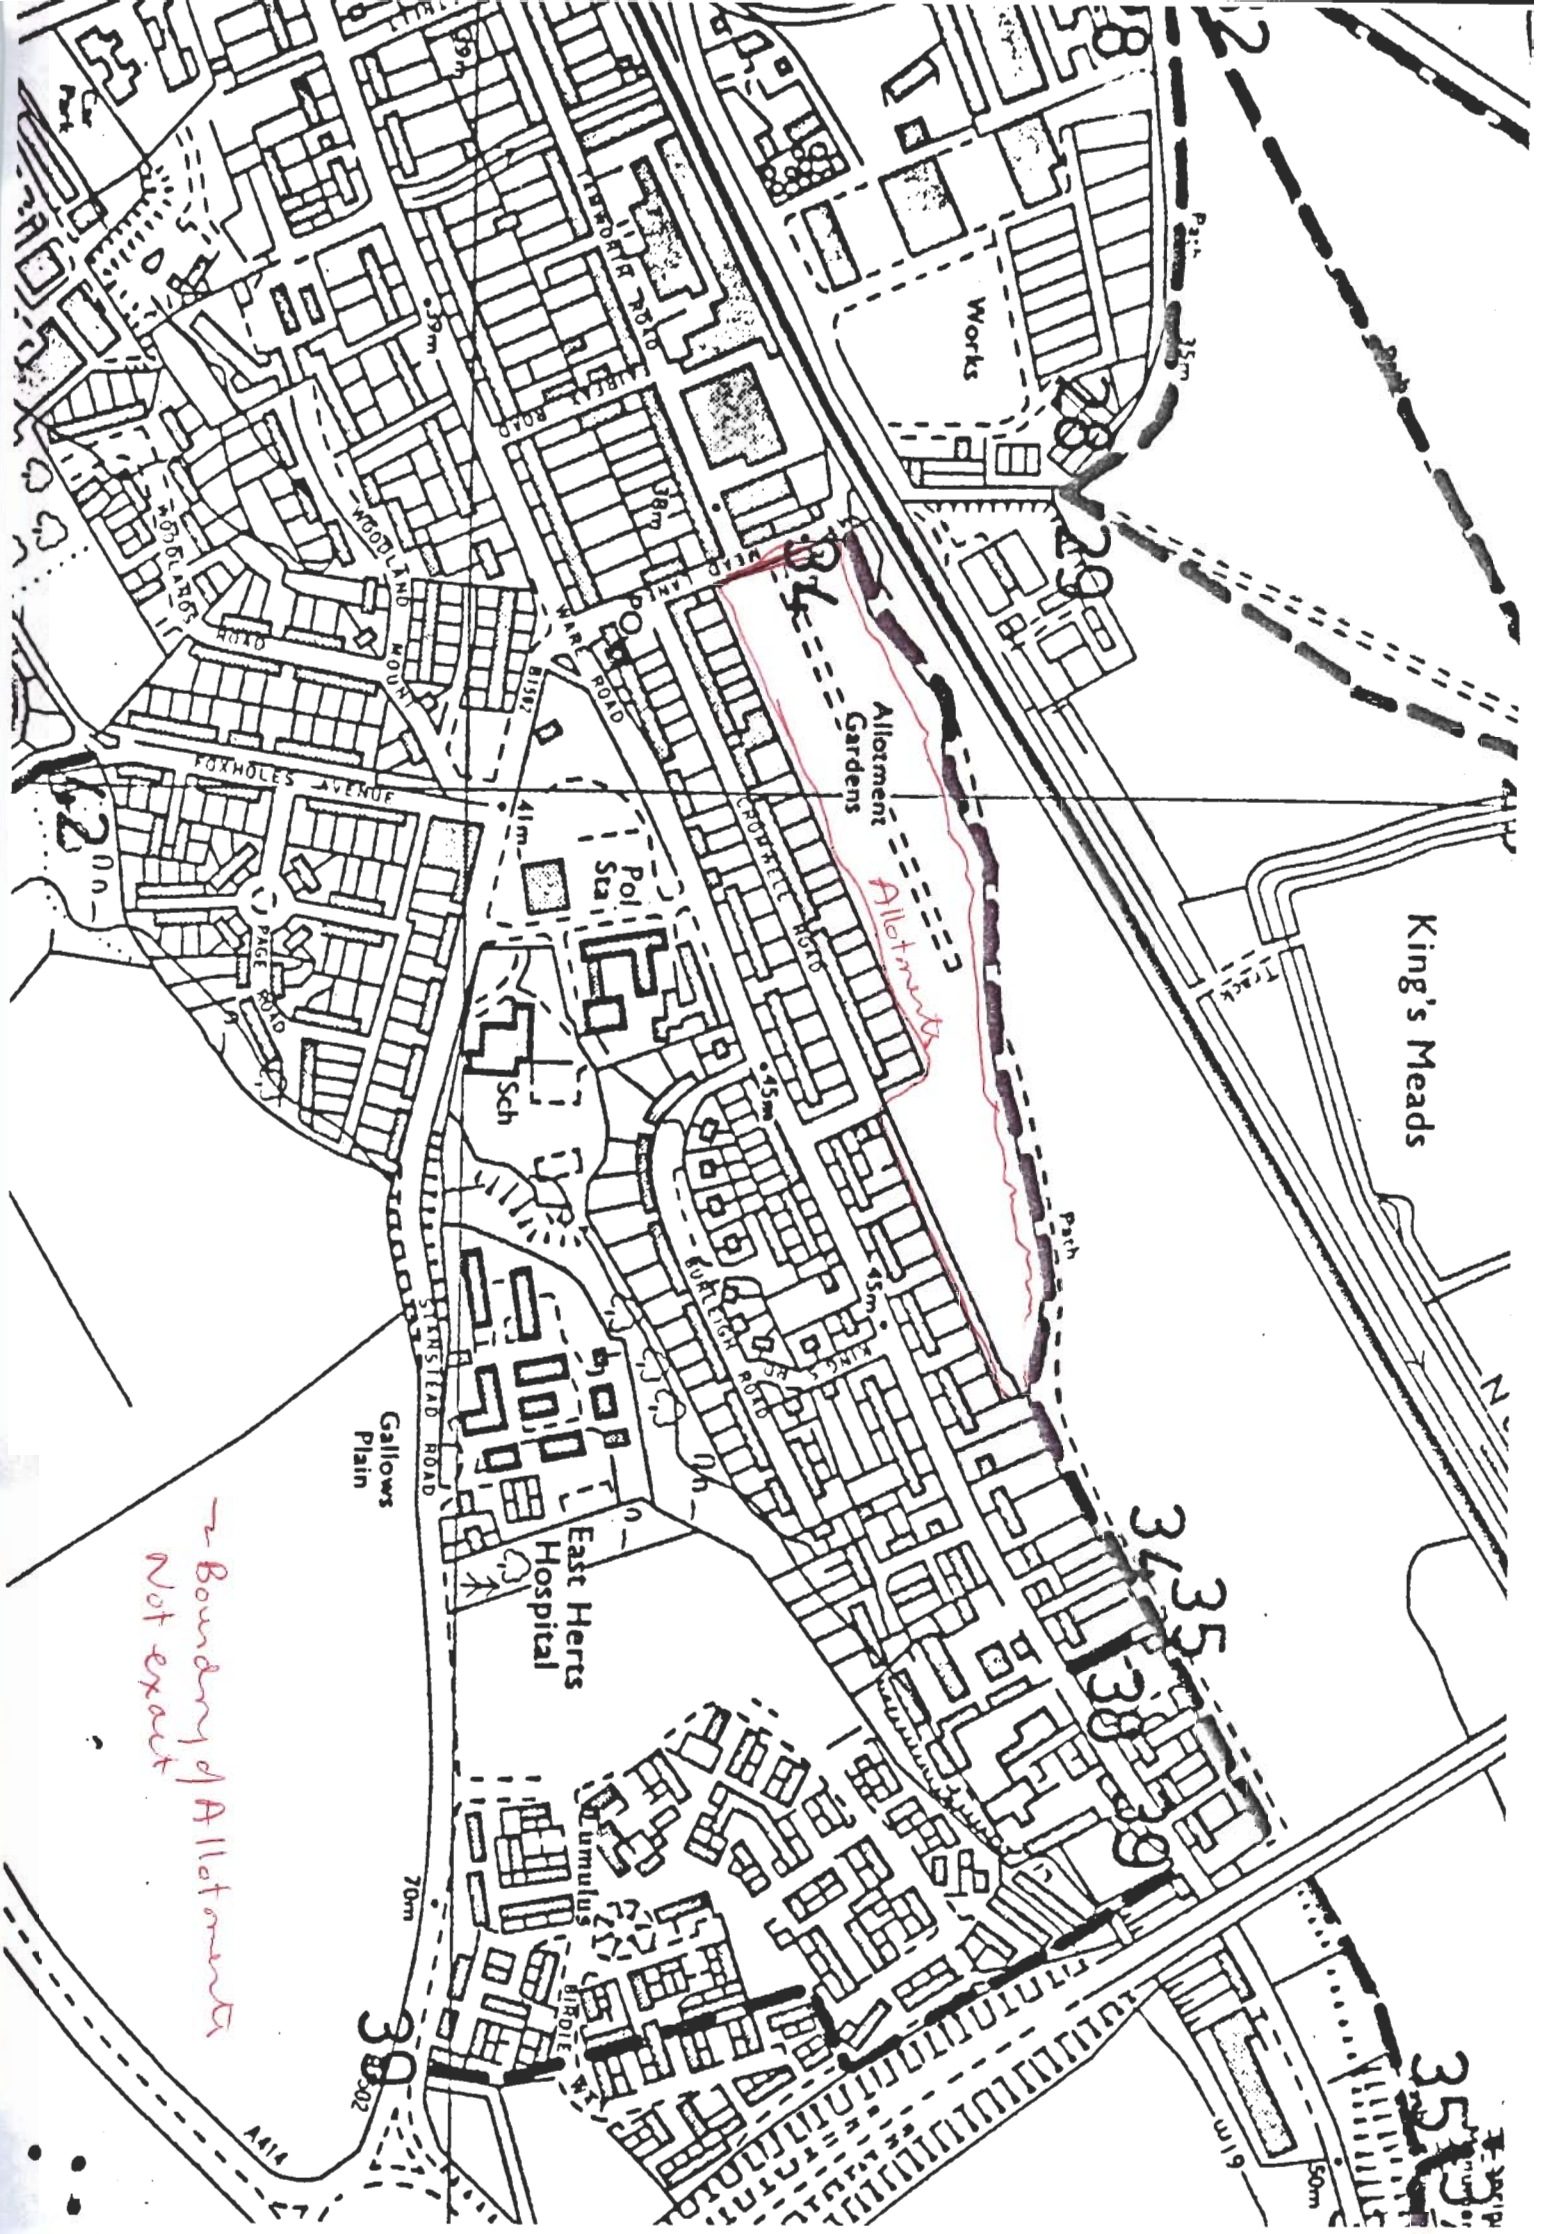

About ten years ago the then Allotments Secretary installed a stile in the fence between the Allotment land and the adjoining land because he was tired of mending the hedge where people were breaking through onto the footpath in the next field. He did not consult with the Allotments Committee in taking this action and now the Councillors have discovered what has taken place they are anxious to ensure that the path does not become a permanent right of way.

I have consulted with Mr David Dench, the Area Countryside Manager, who has kindly provided me with two small plastic notices which are to be erected at the gate onto the allotments land and adjoining the stile. These state that "The path beyond this point is not a public right of way but the owner allows the public to use it for the time being". He has also advised me to write to you to state that Hertford Town Council, as owner of this land, has no intention to dedicate any rights of way over this land.

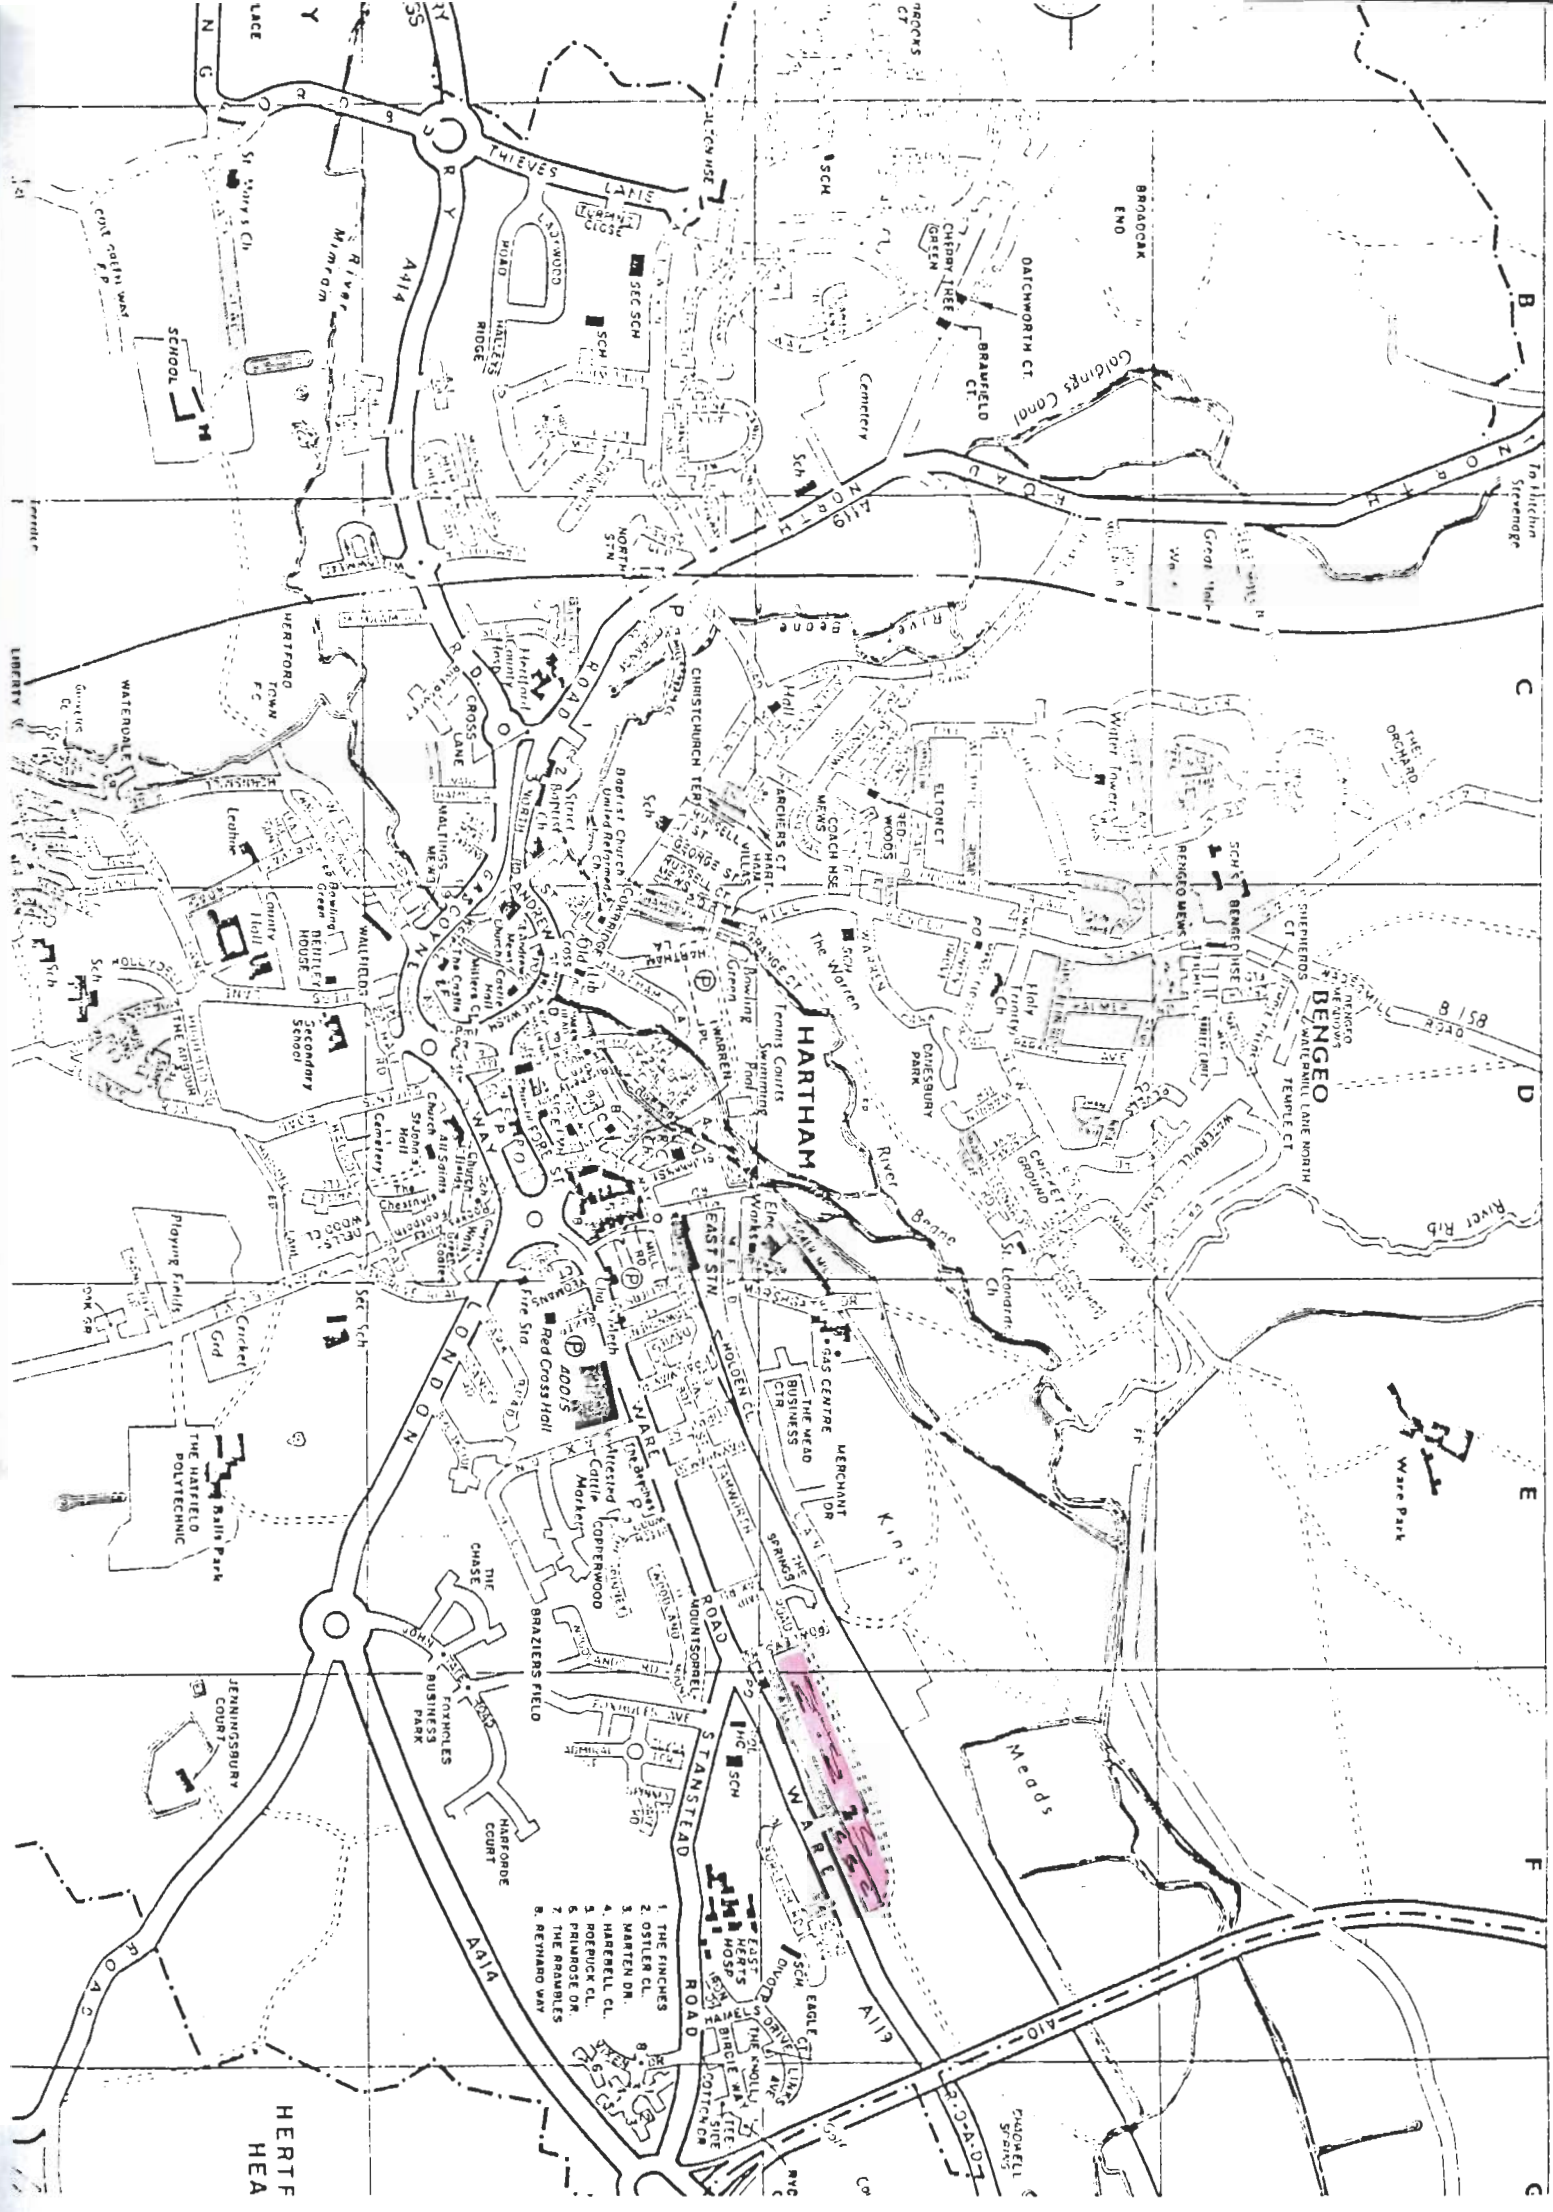

I should be grateful if this intention could be registered in your records.

Yours faithfully,

Town Clerk
