Falls Register & Referral Tool

Patient who is 65 and above.
Or < 65 at risk of further future falls due to existing health problems

Full assessment and treatment. Conveyance to hospital if required

Explain to patient, purpose of register and gain consent

Conveyance or not CALL SPOC 0845 602 6856
Modified Cryer Risk Assessment Tool

- Is there a history of any fall in the previous year? How many?
- Is the patient on four or more medications per day?
- Does the patient have a diagnosis of stroke or Parkinson's Disease?
- Does the patient have input from a Neurologist?
- Does the patient report any problems with their balance?
- Does the patient have difficulty standing from a chair or knee height?
- Does the patient complain of blackouts or loss of consciousness?
- Do you suspect AF?
Abbreviated Mental Test 4 (AMT-4)

1. What year are we in?
2. What do we call this place you are in?
3. How old are you?
4. What is your date of birth?

An incorrect answer to any of the four questions suggests cognitive impairment may be present.

CONVEYANCE OR NOT, COMPLETE PAPERWORK AND SEND TO SPOC!
ALL FALLS 65 YRS AND OVER MUST BE REFERRED IRRESPECTIVE OF LOCATION, LOCAL SERVICES, PREVIOUS REFERRALS, CONSENT* OR WHETHER TRANSPORTED OR NOT.

*Patients who don't consent should still be referred to SPOC. Basic data will be recorded securely up to the point of 'does the patient consent' when the call will end.

Notify Hertfordshire Falls Liaison Service
(By completion of paperwork and referral to SPOC)
