

Headline Sponsor: Hertfordshire Building Control

Hertfordshire Building Control generously supported the Awards 2018.

Hertfordshire Building Control, who carry out building control services on behalf of seven local authorities in Hertfordshire, are delighted to be Headline Sponsor for the 2018 awards. With the largest team of qualified surveyors in the county, we ensure that every building project achieves approval with the minimum of disruption and that all profit is returned to the authorities and invested back into local communities.

Simon Heywood, Managing Director of Hertfordshire Building Control comments “At Hertfordshire Building Control, we cover all aspects of building work for both residential and commercial clients across Hertfordshire and we are committed to the very highest quality in everything that we do. Hertfordshire is a desirable place to live and work and this is largely due to the sustainable developments and retrofit projects that happen across our county. Hertfordshire Local Authorities are one of the only councils across the UK to recognise and reward sustainability in this way and we are delighted to be involved and very proud to be headline sponsors of the 2018 Building Futures Awards.”

Award Category Sponsor: BRE Group sponsoring the ‘Project of the Year’ award.

BRE Group, a world leading multi-disciplinary building science centre with a mission to improve the built environment through research and knowledge generation, are delighted to be Project of the Year Sponsor for the 2018 awards. An innovative group of researchers, scientists, engineers and technicians, BRE Group work on projects which are dedicated to improving the built environment through research and knowledge generation.

“We are delighted to be the sponsors of the Project of the Year category at the 2018 Building Futures Awards, as they recognise the buildings which successfully demonstrate true sustainability throughout Hertfordshire. At BRE Group, we use independent research to create products, standards and qualifications that help to ensure buildings, homes and communities are efficient, sustainable and enjoyable places to be. We enable our customers to deliver their social, environmental and economic goals and are proud to be celebrating those who have achieved this in Hertfordshire.”

Award Category Sponsor: Places for People sponsoring the 'Design Excellence' award.

Places for People, who build sustainable communities that are for everyone, whatever their background and whatever their needs, are delighted to be Design Excellence Sponsor for the 2018 awards. Working across the full spectrum of placemaking, and with over 50 years' experience in the business, they are committed and invest in the long-term sustainability of places.

“At Places for People we know what it takes for a community to thrive, today and in the long term. Our placemaking and regeneration work takes a commercial approach to delivering social outcomes, ensuring the sustainable development of all places. We are delighted to be the sponsors of the Design Excellence category at the 2018 Building Futures Awards, as these awards recognise and celebrate everything that we stand for at Places for People. We are excited to see the schemes and projects entered and look forward to celebrating with the winners in October.”

Award Category Sponsor: Willmott Dixon sponsoring the 'Most Sustainable Construction' award.

WILLMOTT DIXON

SINCE 1852

Willmott Dixon are a privately-owned company that is one of the biggest in the construction and property sectors. Their Energy Services has a very strong commitment to improving the energy efficiency of homes across the country and are working on some of the largest scheme in the UK.

They believe in long-term partnering with clients, supporting the development, design and installation of energy efficiency measures. As such, they deliver schemes which provide a high quality technical solution and provide best value for money. Their community-based approach means that they create local jobs and training opportunities and support local energy efficiency initiatives.

Award Category Sponsor: MHA MacIntyre Hudson sponsoring the 'Retrofit for the Future' award.

MHA MacIntyre Hudson, a firm of chartered accountants, tax and business advisers, who partner with entrepreneurs and individuals interested in profitable growth, are delighted to be Retrofit for the Future Sponsor for the 2018 awards. They provide a full range of financial and business strategy, helping organisations to achieve growth and success for the long term.

Brendan Sharkey, Head of Construction and Real Estate, Partner from MHA MacIntyre Hudson comments, "At MHA MacIntyre Hudson, we help businesses achieve goals and help individuals create sustainable wealth for future generations. We understand the need to support a business through its entire lifecycle and the importance of creating sustainability. This is why we are delighted to be the sponsors of the Retrofit for the Future category at the 2018 Building Futures Awards, as this award recognises those individuals and businesses who have improved existing buildings in order to achieve greater environmental, social and economic benefits. We look forward to seeing the high quality of entries for this category and to announcing the winners on 4th October. "
